

VERSACLIPPER 3000™

AUTOMATIC CLIPPING MACHINE

How can you increase your productivity immediately?

Easy! Use the Vertex VersaClipper 3000 Automatic Clipping Machine. This state-of-the-art machine allows you to clip up to two times faster than with semi-automatic machines and up to six times faster than hand clipping. The VersaClipper 3000 is designed with features that you will not find anywhere else, including adjustable rail height and width control, a clipped product exit rail stacker, and flip-up conveyor chain lugs, to name a few.

The VersaClipper 3000 is easy to operate; any operator can be productive with only a few minutes of instruction.

Compare the VersaClipper 3000 with competitive machines and you will quickly find that there is no comparison. Its design, features and durable construction, along with our unparalleled customer service and support, make the VersaClipper 3000 the clear choice for your clipping needs.

VersaClips™ covered by Patent No. 5,833,064.
 VersaClipper™ is covered by one or more of the following patents: 5,303,821; 5,833,064; 6,055,716.

Outstanding Features Assure Job Performance

Fast and easy height and width adjustment. No shims or spacers required, as with competitive machines.

Exit stacker. Allows operator to load wood into the machine without worrying about exiting product.

1500 clips per roll. 50% more clips per load than competitive machines means less reloading, increased productivity.

Flip-up conveyor chain lugs. Allow you to clip different length rails without having to perform time-consuming changeover, as with competitive machines.

Push button chain reverse. Safe and easy way to clear a jammed component.

"All in one" product design. We designed our VersaClipper 3000 to handle all of your clipping needs, whether it is vertical or horizontal clipping. Unlike competitive machines, you can get standard off-the-shelf parts and service for your VersaClipper 3000. Additionally, the "all in one" design allows you the flexibility to change as your needs and requirements change.

State-of-the-art computer control box. The VersaClipper 3000 has download programmability for storage of more than 5,500 rail and clip spacing configurations. Backlit telephone type keypads make data entry a breeze. Your VersaClipper 3000 is also equipped with barcode scanning capability.

Service and technical support. Vertex Fasteners is committed to providing our customers with world-class customer service and support. Our dedicated regional sales/service technicians are Vertex employees. They know the product, the business, and their customers, and are there to serve you. Vertex also has a well-trained staff of customer service, production, and engineering professionals that are ready and able to assist you.
